

## Krum Veterinary Hospital Boarding Agreement and Details

We would like to welcome your four legged family members to Kamp KVH! Thank you for allowing us to care for your animals while you are away or unable to be close to them. We provide a safe and loving environment with state of the art facilities and activities. Please read over this agreement and sign/date where necessary.

### General Rules

-For your pet's protection, all vaccinations must be current. Each vaccine MUST be administered by a licensed veterinarian. Our staff must be provided with medical records if vaccinations were not administered by Krum Veterinary Hospital.

- Dogs:
  - Bordetella (sometimes called Kennel Cough)- administered within 6 months prior to boarding
  - DHPP or DHPPL- administered within 1 year prior to boarding (reduced protocols put in place by a licensed veterinarian will be accepted)
  - Rabies- administered within 1 year prior to boarding (reduced protocols put in place by a licensed veterinarian will be accepted)
- Cats:
  - FVRCP- administered within 1 year prior to boarding (reduced protocols put in place by a licensed veterinarian will be accepted)
  - Rabies- administered within 1 year prior to boarding (reduced protocols put in place by a licensed veterinarian will be accepted)

-Each pet is examined by one of our staff members at check in (no charge) and detailed notes are taken as to the condition of your animal. If our staff feels as though your pet has a condition/illness/problem that should be addressed by a veterinarian, you may receive a phone call to seek approval for the costs associated with such.

-All pets must be free of internal and external parasites. If your pet is found to have either of these, treatment will be administered at your expense. The cost of flea/tick medication and dewormer vary based on the species/size of your pet.

**-Krum Veterinary Hospital is not responsible for any belongings left with your pet. If your pet shreds toys/blankets or chews on mats/beds, please make one of our staff aware at check in. Destruction of KVH property may result in additional charges to cover damages.**

-All boarding spaces are located indoors with centralized heating and air. Our grass yard is completely fenced for your pet's protection. Krum Veterinary Hospital staff will use professional judgement to determine if your pet can be let off leash in our yard during his/her daily exercise. All dogs are walked outside twice daily. Your pet will never be in a yard unsupervised and will not be allowed off leash with another pet from another family.

-Although we walk pets diligently on a slip leash, please be aware that given the unpredictable nature of dogs, an interaction could take place between animals and unforeseen events could occur while on scheduled walks/playtime. If such event results in injury to your pet, to other pets, or to other people, you, as the pet's owner, will be responsible for such injury.
